RINSE AID INFORMATION SHEET

USE:

An effective additive to assist the final drying process in cabinet dishwashing and glasswashing machines to prevent spots and hazing. Will produce a sparkling finish.

DIRECTIONS:

Dispense via the machine's automatic dosing system, then adjust the concentration until effective results are being achieved with the minimum of product. Alternatively add to the rinsing cycle at a rate of 1 part to 800 parts rinsing water. Rinse Aid will ensure a perfect finish on crockery, cutlery, utensils and glassware. A temperature of at least 60°C should be achieved for the rinse aid to work effectively.

TECHNICAL:

State:	Liquid
Colour:	Dark blue
Odour:	Characteristic alcohol odour.
Oxidising:	Non-oxidising (by EC criteria)
Solubility in water:	Soluble
Viscosity:	Non-viscous
Boiling point/range°C:	100
Flash point°C:	>60
pH Level:	<5

PERSISTENCE AND DEGRADABILITY: The surfactants in this product comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the component authorities of the Member States and will be made available to them at their direct request or at the request of the detergent manufacturer.
