ACIDIC CONCRETE & MASONRY CLEANER INFORMATION SHEET

USE:

An effective acidic cleaner of concrete, brick and masonry surfaces.

DIRECTIONS:

Wear acid resistant gloves, goggles and suitable face and skin protection. Before use, always test an inconspicuous area for suitability. Do not use on acid sensitive surfaces. Dilute 1 part with 4 parts water and brush this solution onto the surface, leave in contact for at least 5 minutes, do not allow to dry out. Agitate surface to remove stubborn marks, rinse thoroughly by spraying with clean water and give a final rinse with a mild alkaline solution. Rinse applicators in water and dispose of after use. Do not use on stainless steel or vitreous enamel.

TECHNICAL:

State:	Liquid
Colour:	Red
Odour:	Characteristic odour
Oxidising:	Non-oxidising (by EC criteria)
Solubility in water:	Soluble
Viscosity:	Non-viscous
Flash point°C:	>70
pH Level:	<2

PERSISTENCE AND DEGRADABILITY: The surfactants in this product comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the component authorities of the Member States and will be made available to them at their direct request or at the request of the detergent manufacturer.
